IR LETTER

FY2025 Investor Relations Letter

Year ended 31 December 2025
Publication date: 15 June 2026
Currency: Euro (EUR)

Founder-style note covering FY2025 financial development, subsidy dependence, and reporting priorities.

Key Figures

Metric	Value
Total assets	EUR 12,458.22
Equity	EUR 3,510.80
Net result	EUR 1,122.49

Management Context

FY2025 marked an expanded operating base for BreastScreening-AI.

The company recorded EUR 24,500.00 in subsidies, EUR 3,000.00 in other income, and EUR 100.00 in sales and services.

The positive result is useful, but it should be read together with limited commercial revenue and continued dependence on grant-backed execution.

Management's response was to strengthen the reporting base around evidence, finance, public claims, and investor communication.

Evidence Boundary

The reviewed source set does not establish unsupported revenue, customers, investments, valuation, regulatory authorization, or clinical deployment.
